

# T-Hub

“The hub of your *trade services*”

A Trade hub is full-fledged trading and logistics platform which grants T-Hub members access to various services. Members will be able to perform all their trading and logistics activities from a dedicated location which is empowered with an online portal that allows members to:

- Trade online using the T-Hub's artificial intelligence (AI) Marketplace.
- Initiate a shipment order.
- Track their company shipments.
- Use an automated billing system.
- Access to various payment methods.
- Utilize an artificial intelligence (AI) customer service and tracking systems.
- Access to online and offline trade events, exhibitions and B2B trade missions.

The T-Hub will also have its own shipping IEC code and will also give the member access to all physical opportunities such as:

- Storage, attestation, sorting and packing.
- Quality control.
- Customs and document clearing.
- Logistics and handling.
- Export and Import services.
- Dedicated account managers with a well-trained sales and professional customer service representatives.
